SET ATOP A MOUNTAIN WITH
BREATHTAKING VIEWS

#700, 368191 184TH AVENUE WEST | BRAGG CREEK, ALBERTA, CANADA

Beautiful Setting

This exceptional log home is set amongst a grove of trees overlooking the valley set below and the mountains to the South and West. The wrap around deck allows for multiple vantage view. The architecture is very European and is reminiscent of mountain homes in the Swiss Alps.

The long drive in to the property is magical with the grass growing between the roadway making the experience that of a 'drive down an old country road'.

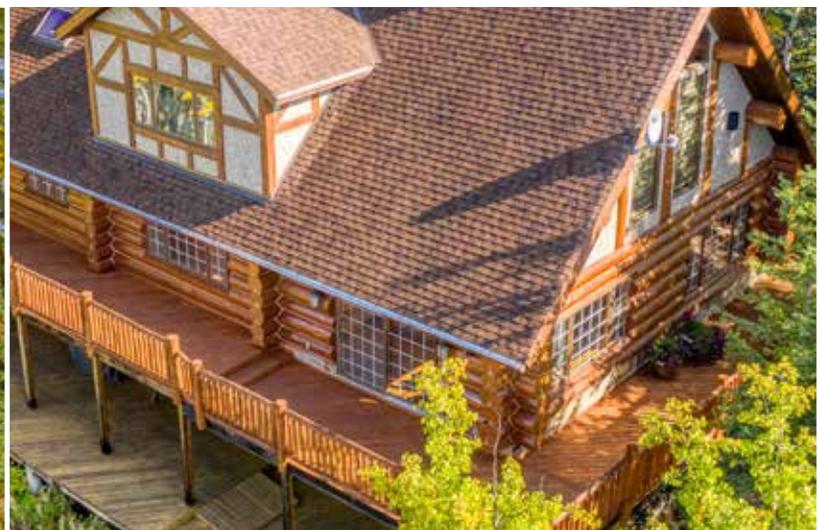

A Painting in the Trees

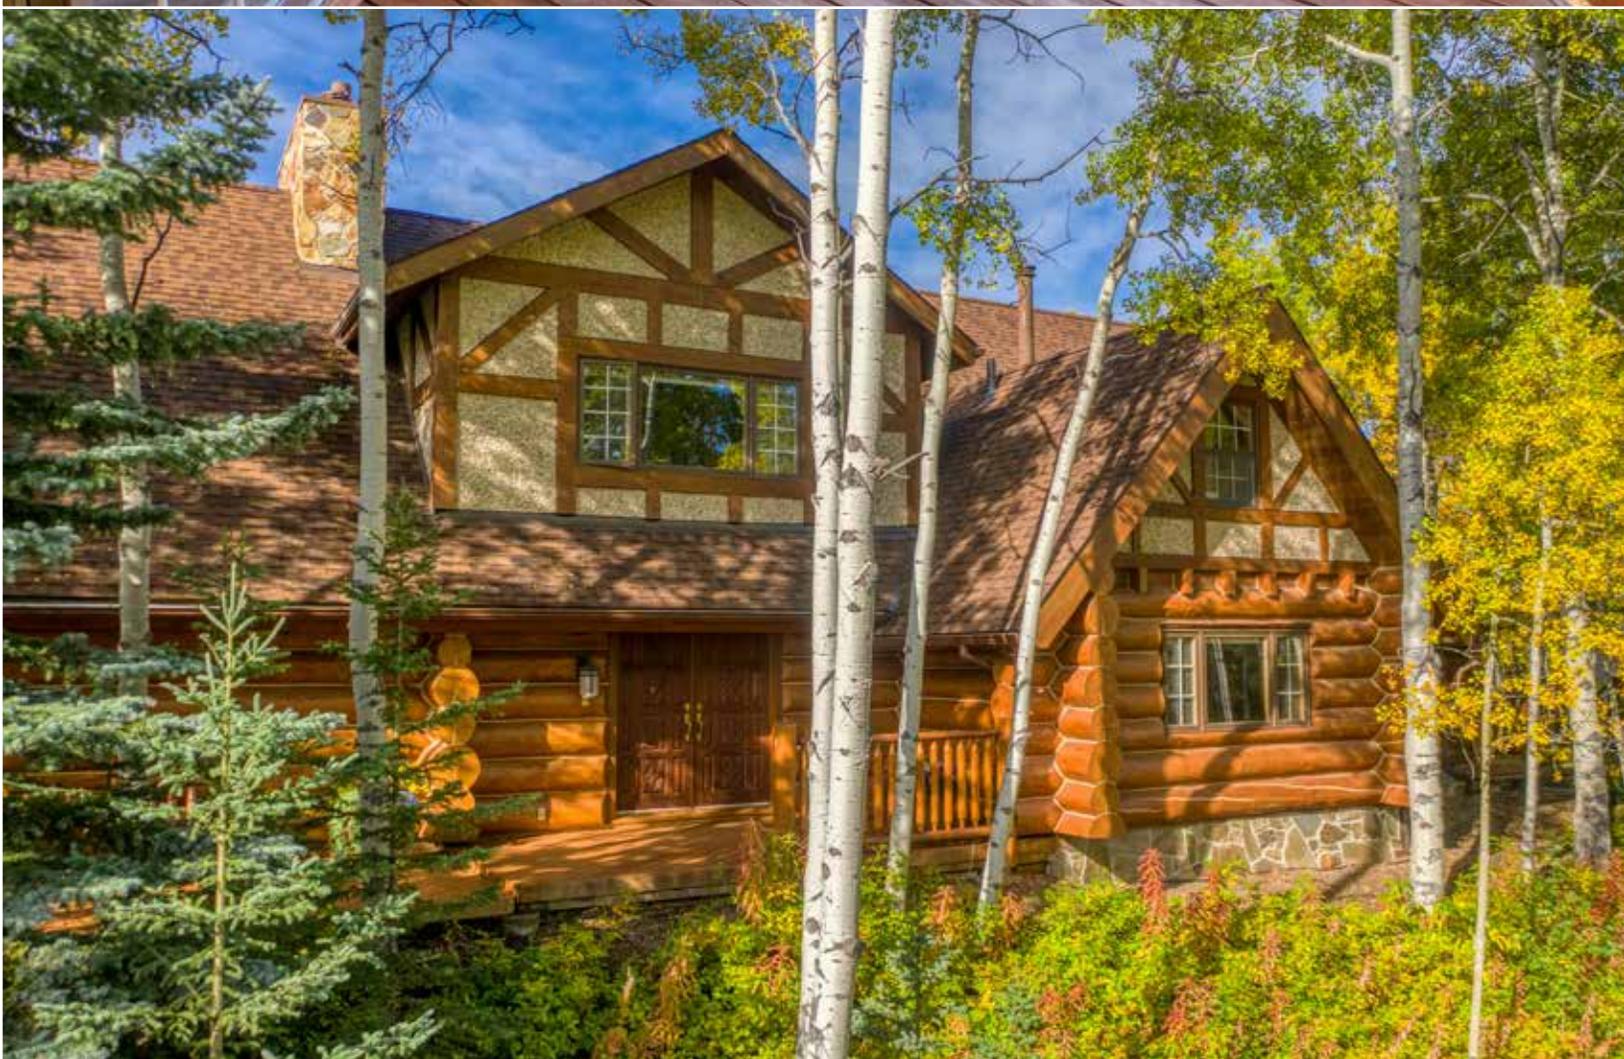

The light shining between the groves of trees feel as though you are looking at a painting from every angle. The owners cut in beautiful pathways to the firepit and sitting areas creating a 'serene walk through the forest'. The mountain views are truly spectacular and the air is crisp, clean and fresh flowing out of the Rocky Mountains. The wildlife abounds, wildflowers bloom, wild berries flourish and the sounds of bird singing in the background is truly special.

The natural materials used in the building of this magnificent log home include natural stone detailing, log wood railing, metal clad windows, and 'rock stucco' accents...

An aerial photograph of a vast, forested mountain landscape. The foreground is dominated by a dense forest of trees with vibrant yellow and green foliage. A road or path runs horizontally across the middle ground. In the background, rolling hills and valleys are visible under a clear blue sky. A small building with a dark roof is partially visible in the lower-left corner.

*A private 'castle' surrounded by forest,
nature and clean mountain air...*

The Lower level of the property features a large garage that could be used as an art studio, a woodworking shop, a mechanics paradise or just for storage...
